

# The Complete Biometry Solution

*Seamless Workflow Integration With the IOLMaster 500*

## A-Scan Plus Connect®

*Item Number: 24-4400*

Help to ensure accuracy<sup>1</sup> and improve efficiency with the new A-Scan Plus Connect®. The Connect ultrasound biometer provides a data link to the IOLMaster® 500 for seamless workflow integration. The IOLMaster's Universal Ultrasound Interface, allows for quick and easy data transfer between the IOLMaster 500 and the A-ScanPlusConnect with only a few clicks.

### Features:

- Immersion and Contact Modes.
- 100% Measurement Capability regardless of lens opacities or fixation difficulties.
- Industry Leading Resolution.
- User-friendly Interface.
- Less Patient Chair Time – Faster measurement capture<sup>2</sup>.
- Automatic Alignment Detection and Sclera Recognition eliminate marginally aligned scans.
- Portable, Lightweight Design – Plug into any PC, laptop or tablet device.
- Share information easily – adaptable document transfer via EMR, email or printer.
- Modern Third and Fourth Generation Formulas including the Hoffer®Q, SRK/T, Halladay, Haigis as well as new post refractive formulas.
- Optimized Lens Constants for superior surgical outcomes.
- Unlimited Software Licenses.
- Streamline your patient data - shares information with IOLMaster 500, B-Scan Plus and UBM Plus.
